

PEST&CROP INDEX 2001

INSECTS, MITES, AND NEMATODES

Alfalfa Weevil

Cold Hasn't Stopped Alfalfa Weevil-5
Insecticides for Alfalfa Weevil Larvae Control-5
High Alfalfa Weevil Numbers and Damage Noted-6
Alfalfa Weevil Larval Survey-6, 7
Severe Alfalfa Weevil Damage Continues Through Northern Indiana-7
Inspect Alfalfa New Growth for Weevil Damage-8

Armyworm

Armyworm Can March Through Corn-7
Armyworm in Wheat-8
Armyworms Marching Big Time, This is NO Parade-9
More "Worm" Reports-9
Armyworm...Ger out the Camera, You May Never See This Again! -10
Armyworm, Natural Control to the Rescue? -11
Lots of Moths, They're Likely Armyworm-12
All Quiet On the Armyworm Front-14

Bean Leaf Beetle

Potential for Problems with Bean Leaf Beetle Highly Variable-2
Bean Leaf Beetle-7
Bean Leaf Beetle at Low Levels-18
Bean Leaf Beetle Returning for Late Season Feast-23

Black Cutworm

2001 Black Cutworm Pheromone Trap Locations-2
As Always, Black Cutworm Moths are Beginning to Arrive-3
Black Cutworm Adult Pheromone Trap Report-3, 4, 5, 6, 7, 8
2001 Black Cutworm Pheromone Trap Locations-3
Black Cutworm Update-5
Black Cutworm Damage Noted in Southern Indiana-7
Black Cutworm Active, Scout Now-8

Black Light Catch Report

Black Light Catch Report-6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 21, 22, 24, 25

Burrower Bugs

Lots of Little Red Bugs-11

Corn Earworm

Continue to Monitor High Value Crops Susceptible to Earworm and Corn Borer-21

Corn Flea Beetle

Winter Temperatures, Corn Flea Beetle Survival, and Potential for Stewart's Wilt-2

Corn Rootworm

Criteria for Treating First-Year Corn for Rootworm, 2001-1
Western Corn Rootworm Winter Survival-3
Western Corn Rootworm Beetles Emerging-14
Corn Lodging, It's that Time of Year-16
Corn Rootworm and Japanese Beetle Survey in Pollinating Corn Fields-17, 18

European Corn Borer

European Corn Borer Moths Flying-10
European Corn Borer Survey-11, 12, 13, 14, 15
Corn Borer Moths Still Flying-13
European Corn Borer, Time to Wait and See-15
Continue to Monitor High Value Crops Susceptible to Earworm and Corn Borer-21
Survey of Overwintering European Corn Borer, Management Considerations for 2002-26
European Corn Borer Survey Results, Fall 2001-26
1999-2001 Overwintering ECB Larvae-26
Indiana Fall Corn Borer Survey 1992-2001-26
Indiana Fall Corn Borer Survey 1961-2001-26

Green Cloverworm

Cloverworms and Thistle Caterpillars, the "Year of the Lepidoptera" Continues-22
Black Moths Flying-24

Hessian Fly

Hessian Fly Infestation Should be Monitored This Fall Even Though Populations Remained Low in Indiana Wheat in 2001-25
Purdue Wheat Variety Provides Excellent Control of Hessian Fly Populations From the Eastern United States-25

Insecticides

Some of the Newer Rootworm Larval Control Products-2
Yellow Sticky Trap Time-18
Soybean Foliar Insecticides, Perhaps a Big Mistake-19
Harvest Restrictions for Soybean Insecticides-23

Insects (Miscellaneous)

A Homeless Insect Story-15
Stinging Caterpillars-21
Black Moths Flying-24

Japanese Beetle

Japanese Beetle Already! –11
Japanese Beetle Becoming a Common Sight-14
Japanese Beetle, To Treat or Not-15
Silk Damage, Not Beetle Numbers-17
Corn Rootworm and Japanese Beetle Survey in Pollinating Corn Fields-17
Japanese Beetle High In Some Fields-18

Other

Grain Bin Clean-Up-24

Potato Leafhopper

Warmer Temperatures Should Increase Potato Leafhopper Numbers-12
Potato Leafhopper Survey in Alfalfa-13
Potato Leafhopper Populations Increasing-15
Potato Leafhopper Numbers High, Natural Reductions Are Possible-19

Rootworms

Rootworm Digging Time! –13
How's Your Rootworm Insecticide Doing? –13
Last Chance to Sample for Rootworm Beetles in Soybean Fields-22

Southwestern Corn Borer

Southwestern Corn Borer Spring Survey-3

Southwestern Corn Borer Moths Flying in Southern Counties-11

Continue to Monitor High Value Crops Susceptible to Earworm and Corn Borer-21

Soybean Aphid

Soybean Aphid Showing Up in Indiana Soybean Fields-17

What's Going On With Soybean Aphid? -21

Spider Mites

Yellow Beans, Rain, and Spider Mites-16

Stalk Borers

Stalk Borer Hatch, Migration, and Damage-6

Stalk Borer Hatching and Damaging Corn-8

Thistle Caterpillars

Cloverworms and Thistle Caterpillars, the "Year of the Lepidoptera" Continues-22

Variegated Cutworms

Variegated Cutworm in Soybean-10

White Grubs

Grubs, a Secondary Pest? -4

Products Labeled for Grubs at Planting-4

WEEDS

Control

Managing Weed Problems in Alfalfa-3

Controlling Johnsongrass-4

Controlling Canada Thistle-4

Herbicides

New Corn and Soybean Herbicides for Year 2001-1

Herbicide Resistant Weed Problems Increasing in Indiana: Add Shattercane to the List-2

It's Never Too Early to be Concerned About Spray Drift-3

What to Expect from Your Soil-Applied Herbicide Program-9

Herbicide Applications on Stressed Corn-12

The Use of Fall Applied Herbicides-25

Other

Wild Garlic, Wild Onion, and Star of Bethlehem-3

Indiana's Most Unwanted-18

Good Luck to Case Medlin-18

PLANT DISEASES

Corn

Diplodia Ear and Stalk Rot of Corn-2
Mother's Day Frost Causes Some Damage to Indiana Corn and Soybean-9
Corn Anthracnose-12
Gray Leaf Spot and Common Rust of Corn-16

Soybeans

Fungicide Seed Treatment for Soybeans-2
Soybean Sudden Death Syndrome-3
Mother's Day Frost Causes Some Damage to Indiana Corn and Soybean-9
Brown Spot of Soybean-12
Soybean Viruses and the Soybean Aphid 2001 Survey-21

Wheat

Risk of Yellow Dwarf in Wheat-2
Growth Stages of Wheat-3
Yellowing of Wheat-3
Leaf Blotches of Wheat-4
Update on Wheat Diseases-10, 12

Other

Growing Points of Interest-9
Sudden Death Syndrome-16, 18
Virus Complex Showing Up-16
Welcome to a New Extension Specialist in Plant Pathology at Purdue University-26

AGRONOMY TIPS

Corn

Tips for Corn Planter Tune-ups-2
Thoughts on Corn Planting Dates-2
Will Starter Fertilizer Increase Corn Yield? -3
