Bed Bug Checklist for Tenants

Do you think you have a bed bug problem? Are you...

1. Waking up with bite marks, usually in a line or a circle?
2. Seeing red smears or stains on your sheets, mattress, or other furniture near your bed?
3. Seeing live or dead bed bugs through a magnifying glass?

If you answered yes to any of the above, you may have a bed bug problem. Use this checklist to help you figure out what to do next.

What Can You Do?

Right away:

- Pull bed away from wall
- Put clothes, bedding, and other items in dryer for at least 20 minutes on HIGH heat
- Once you remove items from dryer, seal them in bags so bugs cannot get in again
- Vacuum on a regular basis. Use a vacuum with a bag. Seal and dispose of bag right away.

Over the next few days:

- Buy a bed bug mattress cover
- Caulk all cracks and crevices, such as along baseboards and around outlets
- Paint or seal your headboard/bed frame AND nightstand
- Eliminate clutter
- Do not store items under the bed
- Continue to vacuum at least once a day
- Wash and heat dry bedding as often as possible

If the problem remains:

- Steam clean
- Use least-toxic bed bug products where appropriate
- Call Metropolitan Tenants Organization
- Talk to your neighbors and organize

Do call your landlord
- DO call your Alderman’s office
- DO talk to someone who can help you
- DO always read and follow directions when using pesticides

DON’T throw away your furniture or belongings
- DON’T panic
- DON’T bug bomb
- DON’T use pesticides not approved for bed bugs
- DON’T spray mattress or self unless pesticide is labeled for such use

Safer Pest Control Project is a not for profit organization dedicated to reducing the health risks and environmental impacts of pesticides and promoting safer alternatives in Illinois.
