Directions to the Purdue Bee Lab

Use 65 North from Indianapolis. Go west on 26 (left) and you will cross the Wabash River after passing through town and the courthouse square. It is a big bridge a couple miles from where you turned. Continue about a half-mile up a small hill until you are going through campus. You are now on State St. You will pass the Memorial Union, and will continue right through campus. The last light is Airport Drive. The road bends to the right up a small hill and over the railroad tracks. The drive to the lab is the second one on the left and has a large gray TV dish near the drive. From the other direction, the drive is the first right after Sharon Chapel Dr.
