

## **Tuesday, January 10, 2023**

- 8:00 – 9:00am **Demystifying Insecticide Formulations**  
[Cassie Krejci, Terminix](#)  
**Indiana CCHs: 1 each in 3a, 3b, 4, 5, 6, 7a, 7b, 7d, 8 & RT**  
Permethrin, Pyrethrin, Pyrethroids and Lambda-cyhalothrin: these are all words you recognize but how do they differ? Understanding active ingredients and the classes of chemistry they fall in will help you use the right tools at the right time and set expectations with your customers. This session aims to take away the haze of technical buzzwords and simplify your understanding of pesticides.
- 10:00 – 11:00am **Resistance Management**  
[Barry Pittendrigh, Purdue University](#)  
**Indiana CCHs: 1 each 7a & RT**  
An update on resistance management from the Purdue labs.
- 12:00 pm – 1:00 pm **Invasive Species**  
[Mark Sheperdigian, Rose Pest Solutions](#)  
**Indiana CCHs: 1 each in 7a & RT**  
The needle ant, spotted lantern fly and other invasives moving into our areas.
- 2:00 pm – 3:00 pm **Regulatory Update & Reciprocity Explained**  
[Leo Reed, Office of the Indiana State Chemist](#) & [Jim Fredricks, NPMA](#)  
**Indiana CCHs: 1 each in 3a, 3b, 4, 5, 6, 7a, 7b, 7d, 8, 12 & RT**  
An update from the state chemist's office on training requirements for PMPs as well as a summary on how reciprocity works across state lines.

## **Wednesday, January 11, 2023**

- 8:00 – 9:00 am **Truck Safety: Spills and Responding to Emergencies**  
[Fred Whitford, Purdue University](#)  
**Indiana CCHs: 1 each in 3a, 3b, 4, 5, 6, 7a, 7b, 7d, 8 & RT**  
A pesticide spill can happen to anyone, so preplan how to respond on the contingency that it will happen to you. Your emergency preparedness—or lack of it—will have a direct impact on the severity of the spill, that is, on the degree of injury and/or contamination it causes. It takes a team approach to deal with a major spill. Don't panic! Exercising common sense and keeping calm will help you through the worst of spills. To be effective, a company's spill response efforts must be built around all employees—supervisors, applicators, and office staff—working as a team

to address the crisis. Company owners and management, office staff, and applicators who are trained to work as a team when a chemical spill occurs can effectively reduce the severity of damage. Are you and your company prepared?

10:00 – 11:00 am

**Essential Oils**

[Ameya Gondhalekar, Purdue University](#)

Indiana CCHs: 1 each in 7a & RT

TBD

12:00 – 1:00 pm

**Regulatory Update & Reciprocity Explained**

[Leo Reed, Office of the Indiana State Chemist & Jim Fredricks, NPMA](#)

Indiana CCHs: 1 each in 3a, 3b, 4, 5, 6, 7a, 7b, 7d, 8, 12 & RT

An update from the state chemist's office on training requirements for PMPs as well as a summary on how reciprocity works across state lines.

2:00 – 3:00 pm

**Termite Treatments for Service Professionals**

[Paul Bello, PJB Consulting](#)

Indiana CCHs: 1 each in 7b, 12 & RT

In depth look at termite treatments including calibration done right.

**Thursday, January 12, 2023**

8:00 – 9:00 am

**Electronic Pest Monitoring: Unleashing observational biologists**

[Kevin Thorn, Thorn Pest Control](#)

Indiana CCHs: 1 each in 3a, 3b, 4, 5, 6, 7a, 7b, 7d, 8 & RT

This session will cover some of the lessons learned while utilizing electronic pest monitors and how these devices can assist your company in becoming more progressive, environmentally sensitive, scientific, and professional.

10:00 – 11:00 am

**Flies in Restaurants**

[Pat Hottel, McCloud Services](#)

Indiana CCHs: 1 each in 7a, 7d & RT

Working with customers to assure compliance with fly programs in restaurants and other food processing facilities

12:00 – 1:00 pm

**Assessing Vs. Inspecting for Rodents**

[Bobby Corrigan, RMC Consulting](#)

Indiana CCHs: 1 each in 7a & RT

Bobby will present a talk on the different aspects of rodent assessment and inspections including why it's important for all PMPs.

12:00 – 1:00 pm

**Ticks: Biology, Public Health Importance and Control**

William Nicholson, Center for Disease Prevention and Control

Indiana CCHs: 1 each in 7a & RT

William will discuss tick identification, tick biology, disease-causing pathogens spread by ticks, monitoring for ticks and aspects of tick management.

**Friday, January 13, 2023**

8:00 – 9:00 am

**Fumigation: Safety & Procedures**

Ryan Yutzy & Jeff Waggoner, Fumigation Service and Supply

Indiana CCHs: 1 each in 7d & RT

Best practices for safety and an overview of fumigation procedures.

10:00 – 11:00 am

**Fumigation: Gas Detection Devices**

Ben Harl, Degesch America

Indiana CCHs: 1 each in 7d & RT

Best management practices for using today's gas detection devices in fumigation treatments.

12:00 – 1:00 pm

**Breaking into Food Processing**

Dominique Sauvage, Terminix

Indiana CCHs: 1 each in 7a, 7d & RT

Case studies on how to secure food processing facilities, compliance, log books in relation to recent media

2:00 – 3:00 pm

**Food Safety: Where should your inspection start and why?**

Dominique Sauvage, Terminix

Indiana CCHs: 1 each in 7a, 7d & RT

Dominique will break down the inspection of a food plant and look into each section to determine the reason for it and how to manage the area.
